## **Performance Notes:**

### **Harmonics**

For harp

- Harp harmonics indicate actual desired pitch

For strings:

- Natural harmonics are indicated by the harmonic sign over the sounding pitch
- Artificial harmonics are shown by a regular notehead at the stopped point and a diamond notehead at the touch point

### **Percussionist II**

- Use the stick part of the vibraphone mallet for the triangle for a muted, distant sound
- The Triangle and Crotales can be left to ring out for a short amount of time for convenience
- The Triangle is to be played open unless indicated + (muted) above the note
- If available, keep vibraphone motor on throughout piece

### **Score**

- Numbers in the string section indicate which player plays a given line
